

KENNEDYVILLE SCHOOL NO. 4 (K-391)  
Kennedyville, Maryland  
(ca 1875)

*The Mabrey house is included in this survey because it incorporates the shell of the Kennedyville Elementary School in its walls.*

*The old school building was three bays long and three bays wide. It had the same gable roof configuration as the present building and was probably entered from the gable end. The building was erected about 1875 and appears on the Lake, Griffing & Stevenson Atlas of 1877 as School No. 4 of the Third District. It operated until Christmas 1914.*

**DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE**

*The Old Kennedyville Schoolhouse has been incorporated into a house which retains the roofline and form of the old school building but which has been made two bays longer by an addition on the northern gable. The original part of the structure is common-bond brick; three bays long and three bays wide with a shallow gable roof. The roof is finished with a box cornice and return.*

*Windows have six over six sash set in 1" bead frame; hardware on the jambs indicate that they once had shutters. There were originally entry doors in the east and south walls. That in the east seems to be intact and a four-panel door remains in place. Chimneys in each gable serviced stoves inside.*

*At the time the building was extended the entire structure was covered with perma-stone; the walls are now painted white.*

*There were two school rooms and, probably, an entry foyer in the south end of the building. When it was converted into a house, all interior features of the old school were removed; only the 6" wide yellow-pine flooring is visible.*
